Requirement:

I have set few required steps which you must check before proceeding further.

1. **Don't be angry** - *This is an unusual format of a Resume so don't become angry if you didn't like it.*
2. **Patience** - *You might wonder where is the main content you want to see, its included just scroll.*
3. **Time Consuming** - *It might take around fifteen minutes from your valuable time.*

About / Profile:

INTRODUCTION

```
<?php echo "Hello World!"; ?>
```

I am Shoaib Sadiq. Thats all I can say about me.

I can write articles on any topic but when it comes to write about myself, my list of words disappears.

You can't judge someone by reading something about him written by him.

It would be better to meet him directly and ask anything you want, you will get to know what he is and capable of.

Work / Portfolio:

I have been working in web field since 2004 but started the developing in 2008 for XECES's customers, before that I was only selling web services and doing out source development.

Below is list of some work I did:

http://www.xeces.com/	-	Complete Design & Development
http://www.sdesignez.net/	-	Complete Design, Development & Animation (2005)
http://www.stringsclub.net/	-	Complete Design & Development
http://www.umartextiles.com/	-	Design, Develop & Animation
http://www.xeces.com/portfolio/avp/	-	Design & Develop
http://www.xeces.com/portfolio/sda/	-	Design & Develop
http://www.faisalcorp.n.com/	-	Design & Develop
http://www.xeces.com/portfolio/ccgp2/	-	Design & Develop
http://www.pakedu.org/	-	Design & Develop
http://www.xeces.com/portfolio/acquafris/	-	Design & Develop
http://www.dd-brothers.com/	-	Design & Develop

For updated portfolio visit : <http://www.shoaibsadiq.com/work/>

Experience:

I am Founder & C.E.O of XECES Technologies. Its a firm providing web based solutions including:

- Domain Names
- Web Hosting
- Web Hosting Reseller
- Website Design & Development
- Virtual Private Server (VPS)
- Dedicated Server
- Cloud Servers
- Search Engine Optimization (S.E.O)
- Voice over IP (VoIP)
- Graphic Designing
- Server Management
- Secure Socket Layer (SSL) Certificate
- Marketing Solutions

And some other services you can view complete list at <http://www.xeces.com/services/>

I have a working experience of 6 years, as I have started to work in the web field in September 2004 when I first develop my personal website shoaibsadiq.com, it wasn't attractive at that time as I was a beginner without any kind of knowledge related the field.

Further on I gained some experience by just practicing and working on personal and projects from random clients, I have been doing outsource work more then personal projects.

Inspirations:

What comes in mind after reading this word ?

Let me tell you what I think

Definition: Inspiration is what you see and like is the thing you want to do, not copying.

Written above is a definition of inspiration by me, its like all the other definitions we see in books which aren't easy to understand in first attempt but concept behind all is always the same.

I take inspiration from everything around me even a cup of tea

Inspirations & Imaginations are endless.

Listed below are some sources of my inspiration

- Websites

- Best Web Gallery - <http://bestwebgallery.com/>
- Creattica - <http://creattica.com/>
- Design Shack - <http://designshack.co.uk/>
- Design Snack - <http://www.designsnack.com/>
- Font ex - <http://www.fontex.org/>
- Logo Pond - <http://www.logopond.com/>
- The Best Designs - <http://www.thebestdesigns.com/>

- Companies

- Adobe
- Google
- Apple
- The Planet
- Telenor
- Creative Chaos
- Mindstorm Studios

Aim:

I don't want to waste my life by just doing an ordinary job, instead I want to do/create/explore something special in such a way that it will not only facilitate myself only but others also.

Everyone's aim is to be a well settled person in life and so mine.

As all of us know that majority of Pakistani Youth who uses internet has become an addict to Social Networking websites like Facebook, Orkut etc... using them are good in some manners but what our youth is doing there isn't good, they are just wasting their valuable time. I am not saying that we should stop using these websites but don't become an addict.

I want our youth to participate in countries current situation by raising their questions and if they can then also provide some solutions for the problems we are facing right now.

Pakistanies are very creative people but we are not using ourselves like we should do.

I want to create a platform for our youth to group together and also think about our country, and discuss all the issues of it instead of spending all of our time on online social networks.

Ideas:

Its the thing which came to everyone's mind time by time. Ideas are like expressing our thoughts and feelings to produce any creative or useful objects.

I have some ideas for some projects as I mentioned one of them above in AIM section.

I am seeking to create a platform with a team to work on these ideas.

Contact:

If you want to contact me and you are using internet then its not difficult, open google.com, type "Shoaib Sadiq" (without quotes) and hit enter, you will see my online resources and find a way to contact me.

But if you have this PDF in hand then you might not want to do all the above steps, just read the details below:

Mobile: +92-345-218-5154

Email: shoaib@xeces.com

Web: www.shoaibsadiq.com

If details above are not enough for you then kindly call or email me.

Conclusion:

This is the first time I have created my Resume, I wasn't aware of the format then I checked some other professional CVs but didn't like any, I think it is something that by reading it reader will try to guess about you so it should give the idea about you that how and what you think.

After reading/viewing all these pages above, if you didn't like it so kindly send me an email and help me to improve it.

If you think I have wasted your time then I do apologize.
